- Gross premium written: in 2015/Q1 with 1.9% increase in line with market forecast. Extremely strong increase of Casualty (Migration Call Direct: +1 EURm). Motor is clearly above predicted market growth 2015. Premium decrease results from the industry sector (Transport). Due to changes in reinsurance program (discontinuation of quota contracts in Transport and Fire Ind.) the gross premium increases by 20 EURm compared to PY.
- Net combined ratio (P&C): causes in reinsurance performance/reinsurance-program (approx. 2%pts: new mix of business lines, higher excess payments, NATCAT) and in an unplanned assigned Transport premium. (approx.2%pts: 4.5 EURm premium accounted in 2014 instead of 2015).
- Net operating expenses with 50.7 EURm. Operating costs below previous year. Comissions increased due to lower reinsurance comissions (less proportional reinsurance) to 12.5 EURm.
- Profit on ordinary act: outperformed PY due to extraordinary investment income (particularly from realised capital gains) and amounts to 22.9 EURm. Net insurance claims and benefits of direct business are notably negative due to lower reinsurance release.
