## Subordinated capital and leverage ratio (EURm)

## Economic capital position (EURm)

- The capital requirement for government bonds that are assumed to be risk-free in the Solvency II standard approach amounts to a risk charge of EUR 535mn after diversification in the economic capital model
- The Solvency capital position according to the pure EIOPA standard formula is 152.9%

## ECR split by line of business (2014)

## ECR split by region (2014)

## ECR split by risk module (2014)

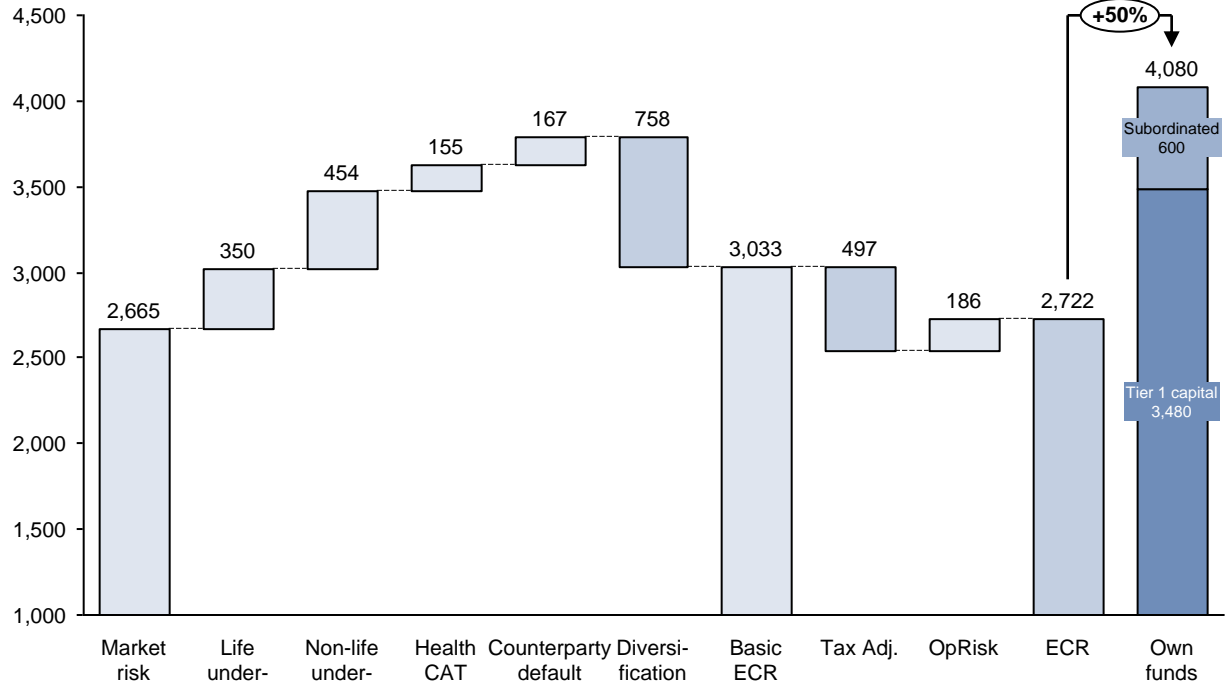

# Group ECR results: development by risk module

- **ECR-Quota decreased from 161% in 2013 to 150% in 2014**
- **ECR decrease by EUR 39.5m**
  - More accurate calculation of the adjustment due to deferred taxes leads to a higher tax adj. that outbalances the slight increase of the Basic ECR
- **Decrease of own funds by EUR 362m**
  - Driven by a smaller revaluation effect of net technical provisions due to lower interest rates

2014 (EUR m)

Risk Profile ECR 2013

2014

# Group ECR results: market risk profile

## Market risk

## Asset allocation

### Key market risks

- Decrease in equity risk due to reduction of hedge funds and non-consolidated funds that were treated as equity
- Increase in spread risk due to purchases of high-quality long-dated government bonds (BE, EU, Suprationals) and yield-enhancing investments (Italian government bonds)
- Increase in concentration risk due to increase in Italian and Croatian government bonds

### Asset allocation

- Increase in bonds mainly due to investments in government bonds (IT, AU, HR, SU, IE, BE) in line with the Group's ALM strategy, leading to decrease in liquidity
- Decrease in real estates due to depreciation and sale of "Haas Haus"

# Cost ratio improved to 18.4%

Cost ratio (net) (%)

- Other operating expenses reduced due to strict cost management in all operating segments
- Increase in net commissions due to strong growth in life single premium business and DAC adjustment (DAC adjustment increasing commissions)
- From 2015 onwards Management Fees are no longer deducted from operating expenses, but allocated to investment income. 1Q14 numbers are adjusted based on this change.

# P&C: combined ratio slightly increased to 98.8%

Combined ratio (net) (%)

- Combined Ratio increased by 0.9 percentage points yoy:
  - Cost ratio decreased to 30.4%
  - Loss ratio increased by 1.6 percentage points due to due to larger amount of basis claims with no external reinsurance refund and reserve strengthening in UNIQA Re

# P&C: improved EBT mainly driven by higher investment result

Net premiums earned EURm

Investment result EURm

Earnings before taxes EURm

- Moderate growth driven by casualty and property business; Competitive motor business in CEE reduced
- UNIQA International CR improved significantly to 97.0% in 1Q15 (101.4% 1Q14)
- UNIQA AT net CR worsened as a result of changed internal reinsurance contracts
- EBT increased mainly due to higher net investment result reflecting higher realized and unrealized gains

# Health: investment result increased

### Cost – benefit ratio (%)

### Investment result EURm

### Earnings before taxes EURm

- Health business continued to grow due to above trend adjustments to premiums
- Underwriting result: Cost slightly decreased but benefit ratio increased in 1Q15 compared to very low benefit ratio in 1Q14
- EBT increased mainly reflecting higher net investment result driven by unrealised gains on fixed income and gains on sale of real estate

# Life: Solid investment result and increased policyholder participation drove result

- Reserves increased mainly driven by strong single premium business in Italy and Raiffeisen Insurance Austria
- Strategic asset allocation & real estate portfolio transformation reflected in strong investment result despite impairment of Hypo Alpe Adria bonds
- Increased deferred policyholder participation as result of different valuation methods between IFRS and local GAAP
- Interest environment affecting life business to be the key issue for coming years

- GEV changed by -0.4% to EUR 4,175m
- Decrease driven by value of in-force business due to lower interest rates and higher implied volatility
- Decrease in VIF partly offset by strong operative development due to expenses improvement for Austrian Life & Health and new business value
- Return on GEV amounts to EUR +98m or +2.4%

- This presentation (the "Presentation"), and the information contained therein, is not directed to, or intended for viewing, release, distribution, publication or use by (directly or indirectly, in whole or in part), any person or entity that is a citizen of, or resident or located in, the United States, Australia, Canada or Japan or any jurisdiction where applicable laws prohibit its viewing, release, distribution, publication or use.
- This Presentation is being provided for information purposes to selected recipients only and does not constitute or form part of, and should not be construed as an offer or invitation or recommendation to, purchase or sell or subscribe for, or any solicitation of any offer to purchase or subscribe for any securities in UNIQA Insurance Group AG, a stock corporation organised under Austrian law (the "Company"), in any jurisdiction. Neither the Presentation, nor any part of it nor anything contained or referred to in it, nor the fact of its distribution, should form the basis of or be relied on, in connection with, or act as an inducement in relation to, a decision to purchase or subscribe for or enter into any contract or make any other commitment whatsoever in relation to any such securities.
- The contents of this Presentation and any information relating to the Company received (whether in written or oral form) are confidential and may not be copied, distributed, published or reproduced, directly or indirectly, in whole or in part, or disclosed or distributed by recipients to any other person.
- The information contained in this Presentation has been provided by the Company and has not been verified independently. Unless otherwise stated, the Company is the source of information.
- No reliance may be placed for any purpose whatsoever on the information or opinions contained in the Presentation or on its completeness, accuracy or fairness. No representation or warranty, express or implied, is made or given by or on behalf of the Company or any of its respective directors, officers, employees, agents or advisers as to the accuracy, completeness or fairness of the information or opinions contained in the Presentation and no responsibility or liability is accepted by any of them for any such information or opinions. In particular, no representation or warranty is given as to the achievement or reasonableness of, and no reliance should be placed on any projections, targets, estimates or forecasts contained in this Presentation and nothing in this Presentation is or should be relied on as a promise or representation as to the future.
- This Presentation contains forward-looking statements based on the currently held beliefs and assumptions of the management of the Company, which are expressed in good faith and, in their opinion, reasonable. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, financial condition, performance, or achievements of the Company, or industry results, to differ materially from the results, financial condition, performance or achievements expressed or implied by such forward-looking statements. Given these risks, uncertainties and other factors, recipients of this document are cautioned not to place undue reliance on these forward-looking statements.
- All features in this Presentation are current at the time of publication but may be subject to change in the future. The Company disclaims any obligation to update or revise any statements, in particular forward-looking statements, to reflect future events or developments.
- Statements contained in this Presentation regarding past events or performance should not be taken as a guarantee of future events or performance.
- Prospective recipients should not treat the contents of this Presentation as advice relating to legal, taxation or investment matters, and are to make their own assessments concerning such matters and other consequences of a potential investment in the Company and its securities, including the merits of investing and related risks.
- In receiving any information relating to the Company (whether in written or oral form), including information in this Presentation, you will be deemed to have represented and agreed for the benefit of the Company (i) that you will only use such information for the purposes of discussions with the Company, (ii) to hold such information in strict confidence and not to disclose it (or any discussions with the Company) to any person, except as may be required by law, regulation or court order, (iii) not to reproduce or distribute (in whole or in part, directly or indirectly) any such information, (iv) that you are permitted, in accordance with all applicable laws, to receive such information, and (v) that you are solely responsible for your own assessment of the market position of the Company and that you will conduct your own analysis and be solely responsible for forming your own view of the potential future performance of the Company's business.
